About TAITRA

Founded in 1970 to help promote foreign trade, the Taiwan External Trade Development Council (TAITRA) is the foremost non-profit trade promotion organization in Taiwan. Jointly sponsored by the government, industry associations, and several commercial organizations, TAITRA assists Taiwan businesses and manufacturers with reinforcing their international competitiveness and in coping with the challenges they face in foreign markets.

Since its establishment, TAITRA has developed a well-coordinated trade promotion and information network composed of over 1,200 trained specialists stationed at its headquarters in Taipei, in four local branch offices in Hsinchu, Taichung, Tainan, and Kaohsiung, as well as in over 60 representative offices around the world.

In association with its sister organizations, the Taiwan Trade Center, Inc. (TTC) and the Taipei World Trade Center (TWTC), TAITRA continues to do everything possible to adapt its trade promotion strategies to the changing international trends and conditions. TAITRA's major functions include Market Development, Strategic Marketing, Trade Information Services, Exhibitions, Convention Services, Trade Education, and TaiwanTrade (an e-Trading Hub service).

Tremendous business opportunities can be found in Taiwan's dynamic economy. Taiwan's strategic location, infrastructure and capital make the island an ideal springboard for business operations throughout Asia and the Pacific Rim. TAITRA, together with its experienced trade specialists, all stand ready to help you do business with Taiwan.

Products

EPDM Rubber Parts (Seal, Cup, Boot)

HONG CZU

HONG CZU INDUSTRIAL CO., LTD.

High quality peroxide cured EPDM

- Heat resistant up to 175°C
- Imported high quality rubber
- Customized products

Advantages of using peroxides

- Improved heat stability
- Enhanced properties against aging process
- Improved compression set
- Color of the compound not reverting during the cure
- More stable

Our products

Our expertise is producing high quality EPDM rubber parts for brake cylinders, such as rubber cups, seals, boots, and repair kits, for diverse automobiles. The high quality EPDM rubber meets ASTM specification for brake cylinders. We also customize various sized EPDM rubbers for different performances.

EPDM Rubber

In general, EPDM possesses an excellent resistance to ozone, sunlight and weathering, and has very good flexibility at low temperature, good chemical resistance and good electrical insulation property. EPDM rubber is often used in seals, rubber mechanical goods, and many other applications.
